Worksheet 2 (C)

Hazard Assessment

- **Reduce Impact:** What steps or actions might we take to respond to the hazard as it occurs to help limit the impact? This could result in individual actions or a full checklist of action plans specific to each hazard.

Hazard	Actions

- **Resources for Recovery:** What resources might we put in place in advance of a possible hazard, pre-position, that will help us recover from the hazard faster than if it wasn't done?
