

Portable Evacuation-Kit

This is a rolling kit that used during an evacuation to carry things too heavy or bulky to fit in the **TakeAway-Pack**. They should be stored in the portable evacuation-kit for quick access.

- Small tent (with stakes), large enough for the family an personal TakeAway Packs.
- Battery operated lantern (solar powered would be better)
- Water – 1 gal/person
- Filter to purify additional water
- Food – canned or packaged foods (2 to 5-day supply for family)
- Manual can and bottle opener
- Portable camp stove (miniature propane)(DO NOT USE in a sealed room)
